

On Assignment

New Mexico

"The beauty is breathtaking! I love waking up to the sun everyday and going to a job where everyone's disposition is sunny."

-Ray W.

From the Permian Age Carlsbad Caverns to white sand dune to high mountains in the north, New Mexico's unique geology is far from boring. The serene landscape and atmosphere create a peaceful respite from chaos of everyday life. The story of New Mexico's rich culture unfolds in their plentiful historical museums and national parks. Whether you looking for an urban experience or a rural adventure for your next assignment, New Mexico has the charm of small town living with the convenience of modern city amenities. It's a place that beckons travel nurses from every corner of the country.
