

On Assignment

Northern Central California

"I love it here! I've made so many wonderful lifelong friends and find a new adventure everyday!" -Brenda J. (ER Traveler)

TGhealthcare has served this small community hospital exclusively for almost a decade!

Located in Northern California, travelers have central access to the 626 vineyards of Napa Valley, the Sierra ski slopes of Mammoth, the clear blue waters of Lake Tahoe, gold country and raw beauty of Yosemite; all just a hop, skip and a jump away! Although most of our travelers stay anywhere from 6 to 18 months we are always looking for the next nurse to continue the hospital's legacy of excellence in Patient Care and Medicine.
