## Vancouver, Washington

"I love it here! I've made so many wonderful lifelong friends and find a new adventure everyday!" -Brenda J. (ER Traveler)

Located on the north bank of the Columbia River, Vancouver was established as a logging sawmill community and later became a vital port, linking the trade route between the Orient, Canada and London. Today Vancouver is a bustling metropolitan and urban centre, ranked highly in the worldwide "livable city" rankings for more than a century! Home to the 2010 Winter Olympics, Vancouver's year-round temperate climate offers a myriad of outdoor recreational activities and over 40 miles of urban walking trails. Vancouver is also home to a dozen wineries, live outdoor theater and glass blowing galore!
